

## **Cat Tracks**

Hey kids  
Check it out  
I'm gonna tell you what it's all about

You can scratch and claw  
You can cry and wail  
You can try to be top dog and fail  
But you don't have to live like that  
You just learn to love your habitat

And make cat tracks, cat tracks,  
You make cat tracks, cat tracks,  
Start trackin' and stop cattin' around

Hip cats, hep cats, fat cats too  
Cool cats, jazz cats just like you  
I've been all over this great big world  
Just singin' my songs for the boys and girls  
So find your true cat tale to tell  
And sing your simple cat song well

And make cat tracks, cat tracks,  
You make cat tracks, cat tracks,  
Are you trackin'?  
Then stop cattin' around

(Interlude)

Stay on the scene  
Like a music machine  
Jump, jive and wail  
Hot on the trail of those cat tracks  
Stop cattin' around

(Interlude)

Keep your nose to the grindstone  
Keep your eyes on the prize  
Keep your finger on the pulse  
And don't compromise  
Get trackin' and stop cattin' around

(Interlude)

You better not cry  
I'm tellin' you why  
You better not pout  
You better not frown  
Start trackin' and quit cattin' around

And did I fail to mention  
You'd better pay attention  
'Cause you gotta be patient  
To reach your destination  
So keep trackin'  
And stop cattin' around
